

## Quattro – Quad Spindle Aggregate Head

### Features:

- *Speeding operations by combining tasks*
- *Reducing the number of tool changes needed*
- *Creating custom profiles and mortises*
- *The Quattro features two ER25 spindles for drilling and two ER32 spindles for routing*

### Follow these steps to place an order:

1. *Determine your CNC machine spindle type.*
2. *Make sure the aggregate output is correct for your application.*
3. *Choose your outputs based on the number of spindles the aggregate head offers.*

HSK63F spindle shown. HSK63E, ISO30, ISO40, BT30, and BT35 spindles are also available. Torque arms are available for other spindle types. Call for information

### Output Options:

M5 - ER 25 Collet

R6 - ER 32 Collet

Application	Boring, routing, and sawing
Spindle Speed Max.	10,000 RPM
Tool Speed Max.	15,000 RPM
Rotation	Aggregate can be rotated 360°
Gear Ratio	1:1.48
Maximum Torque	15 ft. lbs.
Maximum Temp.	185° F
Outputs Available	M5, R6
