

The ultimate carbide moulder knife system for high production millworkers who cut Medium Density Fiberboard (MDF). **Euro-Lock** knives are compatible with your existing Wisconsin Knife or Leitz Style steel backing plates. Advantages over the competition include the use of a super strong *C3 μ Micro-Grain* carbide with higher hardness for longer production runs and our backing plates are the only ones made from high grade M2-High Speed Steel for greater carbide support. Our competitors use softer steel backers that can bend & require additional deburing.

Euro-Lock knives and backing plates are CNC ground on the latest crush grinders for greater accuracy, precise index locking, & closer balance tolerances with polished knife faces to a mirror finish to improve the edge sharpness that results in finer material finishes in MDF. Our knives offer the best choice for reliable trouble free performance.
