

Insert Carbide Straight Bits for Mdf/Laminate

652

Straight trimmer bits with one replaceable knife fixed by Torx screw.
 For specialist application requiring low down-time and economy.
 Use multiple passes for totale cutting length.
 For routing, trimming and grooving in boards materials (laminated chip-boards, worktops panels, MDF).
 For use on portable Routers.

INSERT CARBIDE Z1 RH

Drawings are 1:1 scale
