

694.100

These cutter heads have been designed for:

- rabbeting from top and from bottom
- jointing
- grooving

on your spindle moulder machines, double-end tenoner and edging machines.

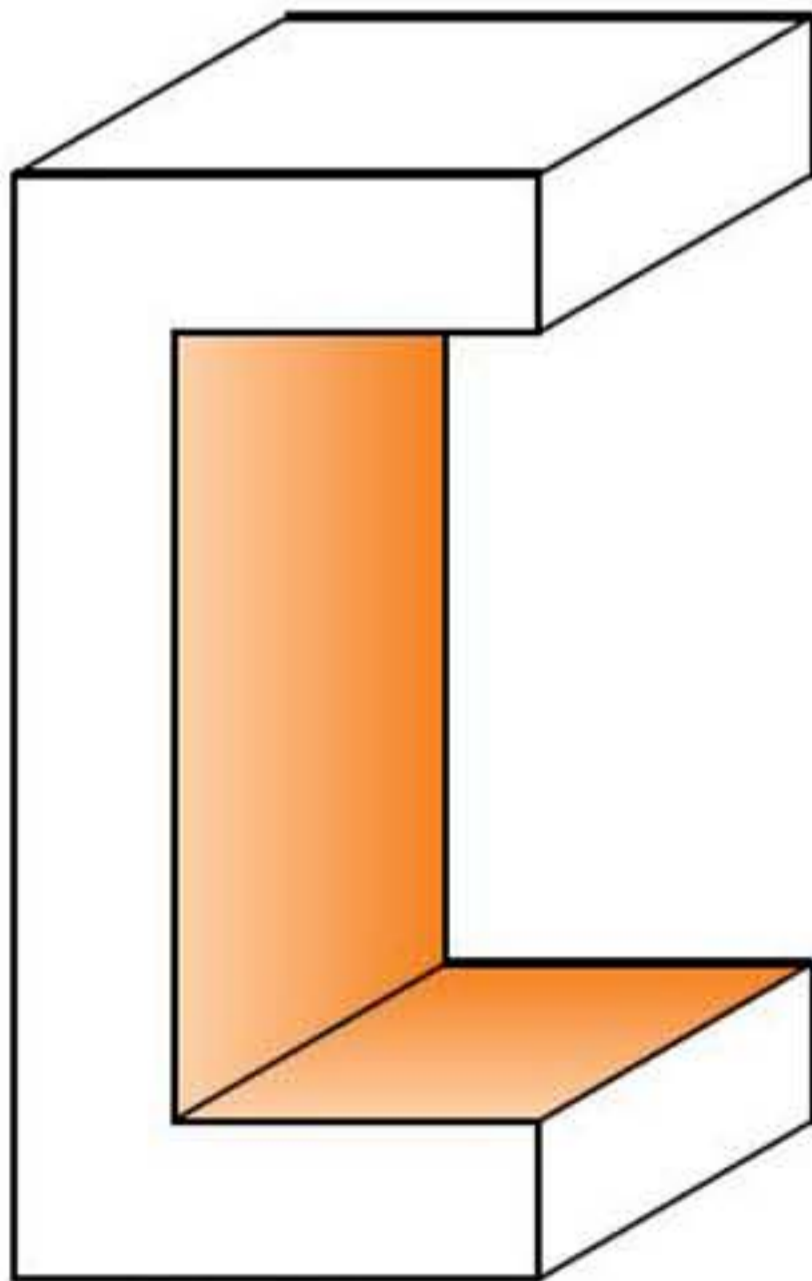

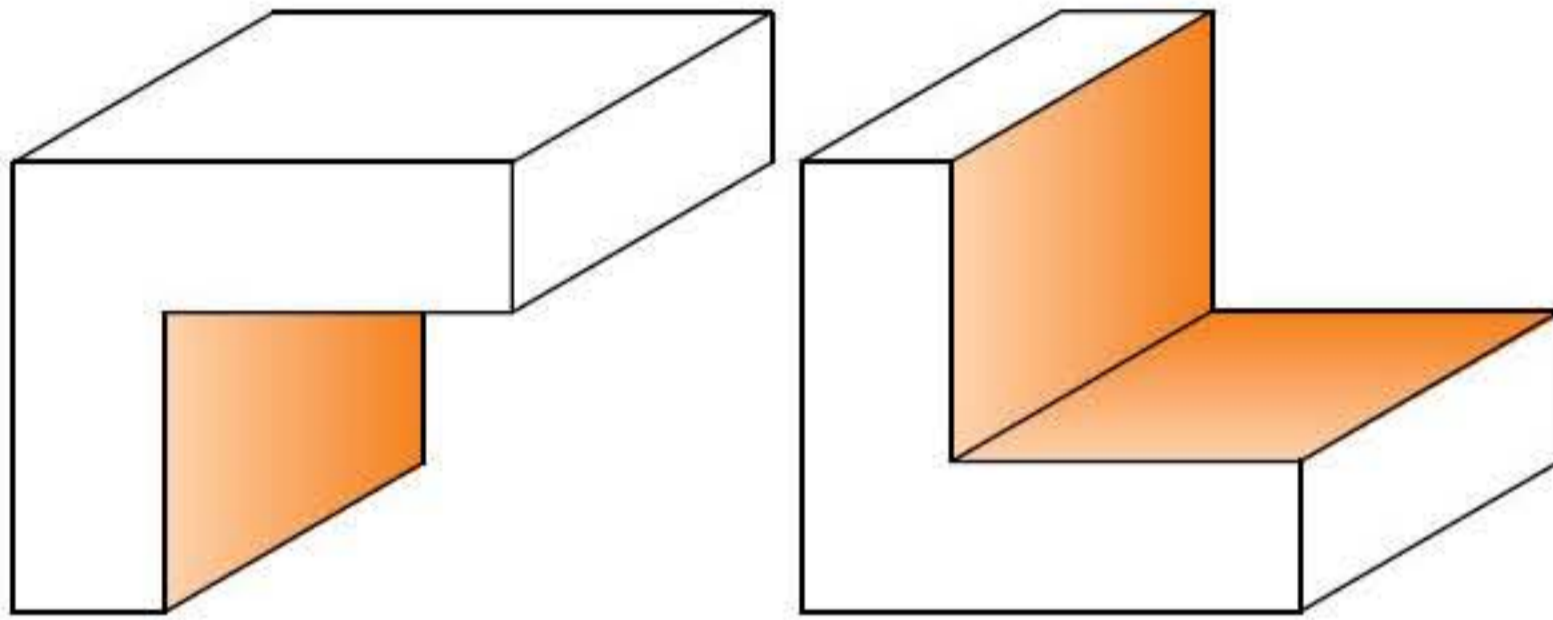

Perfect on all materials, but better results are achieved using chipboard, MDF, wood composites, plastic materials and laminates.

Improved design with shear angle.

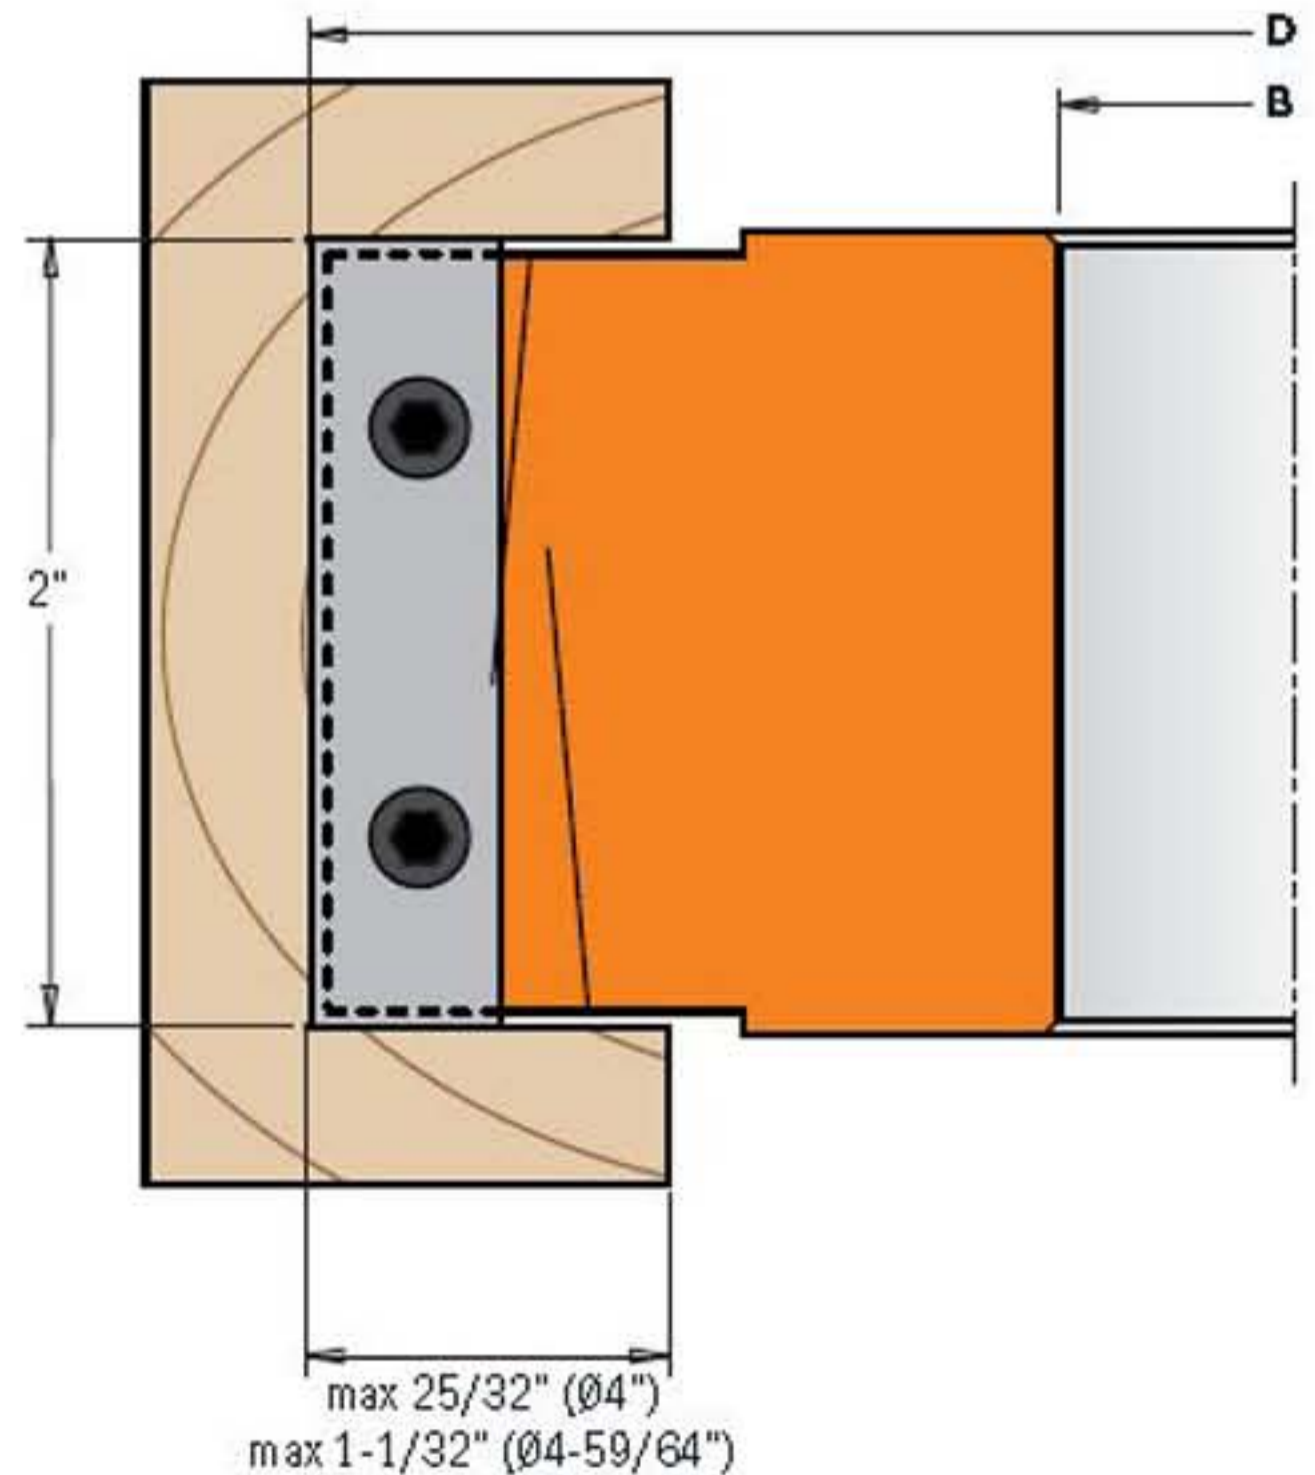

Technical details:

- Hard aluminium alloy body with high resistance to tensile and yield stress
- 2 universal HWM straight knives 50x12x1,5mm [Z2]
- 4 universal HWM scoring knives 14x14x2mm [V4]
- Tools for manual feed MAN
- Pins for the automatic positioning of the knives

Supplied in a solid plastic box

Drawings are 1:1 scale
