Dado & Planer Bits

852 - 852B

Constructed with thick carbide tips and downward shear angle design, CMT Mortising Bits give you flawless performance. The negative shear angle of the cutting edges pushes the wood fibers down as they cut, allowing you to cut perfect hinge mortises with no splintered edges or rough bottoms. They also make an easy job of piece work in both natural wood and wood composites. We offer bits to fit most popular mortising jigs.

Drawings are 1:1 scale
