

'BG' Raised Panel Shaper Cutter

Aluminum alloy head with 2-sided replaceable carbide knives. Manufactured to strict "BG" specifications, which limits the chip thickness for a safer, more controlled cut. For use with 1-1/4", 1" or 30mm spindles only. Standard bore is 1-1/4". Includes 3mm T-Handle hex key.

| D | B | Tool No. | L | d | RPM Ideal/Max |
|------------|-----------|----------|---------------|--------|---------------|
| 180MM (7") | 25MM (1") | 61262 | 60MM (2-3/8") | 1-1/4" | 4200/7000 |
