

Fine Finish

Ideal for trim carpenters, Diablo Fine Finish Blades leave a smooth surface that requires little to no sanding.

Fine Finish blades let trim crews get the most out of sliding or “chop” style miter saws, as well as jobsite or workshop table saws. The special cutting geometry and high tooth count produce extremely smooth cuts while minimizing “grabbing” or blowout. (Blades ending in “S” are also ideal for radial arm saws).

Item#	Diameter	Machine Use	Application	Teeth	Arbor	Kerf	Hook Angle
D1060X	10"	Miter Saw, Table Saw	Fine Finish	60 Hi-ATB	5/8"	.098"	15°
D1060S	10"	Slide Miter Saw	Fine Finish	60 ATB	5/8"	.087"	7°
