

Ultimate Flawless Finish

Flawless crosscuts in wood with minimal rework. Flawless finish in melamine & veneered plywood.

Ultimate Flawless Finish blades with Axial Shear Face Grind (ASFG) tooth geometry let trim crews get precise splinter free cuts on fine molding requiring no rework. The new ultra thin kerf allows portable job site saws to perform to the level of workshop stationary saws. This new innovation allows these blades to deliver energy efficiency & effortless cutting that users can feel. Diablo's Ultimate Flawless Finish blades are easy to use with less material waste.

(Stock should always be clamped when using on a slide miter saw)
