

## Fine Finish (Beam Cutting)

**Ideal for timber framing, Diablo Fine Finish Blades leave a smooth surface that requires little to no sanding.**

Fine Finish blades let timber framing crews get the most out of timber cutting saws. The special cutting geometry and high tooth count produce extremely smooth cuts while minimizing "grabbing" or blowout.

Item#	Diameter	Machine Use	Application	Teeth	Arbor	Kerf	Hook Angle
D1660X	16-5/16"	16" Beam Cutting Saw	Fine Finish	60 ATB	1"	.114"	22°
